

When you want to print your templates be careful to remove the scaling (see picture): the proposed templates are calibrated relative to a full A4 sheet.

Margins can vary from one printer model to another, it is the only way to get the same result when printing.

According to the PDF reader used, the location of this setting may vary.

Below the setting in the dialog box "Print" in Acrobat Reader 9 (the setting is similar in other versions or other software)
